“ For all the family of David, our prayers and blessing are with all of you at this time. David was such a great nephew and he will be deeply missed from our family.

When we received the news my very first thought that came to mind was when Dave was about 3 years old and we came to visit Johnny and Armando in Hayward and there was David running around with his undies and a tee shirt and his hair standing straight up.... He was always so cute.... You two boys are so lucky to have him in your lifes he was such a wonderful man... I know you have alot of memories and always when you are sitting and missing Dave just close your eyes and remember all the things that made your relationship so wonderful... I know from experience that also reading the messages from his family and friends on this site will bring you peace. We love you and we will be thinking of our family this afternoon as you say your final goodbys... We love you guys and if you ever need a shoulder or ear just give us a call.
