“ To Vern and Nancy's Family. My heartfelt love and prayers are with you all. Nancy was a pleasure to know and work with. No matter what the program emergency was to get the documentation completed, Nancy would always go the extra mile to support us. She made working at NG a brighter, nicer place and I will miss her dearly. She was always there bringing kindness and helpfulness to her work and her colleagues. May God Bless your family through this difficult time of loss and know that many people are praying for you.

Sincerely,
Sandy Hanson

“ Words cannot express the sorrow I feel for Nancy's family and friends. Nancy was a wonderful lady and a joy to work with. She could always make us laugh, especially when she would tell one of the engineers whose drawings she was handling "I'm going to kick you in the butt!" when she was correcting their mistakes. It was all in good fun and we all adored her. My thoughts are with her family and friends and I will always remember her warmly in my heart.

“ *A Tribute to Nancy*

A thousand kindnesses come to mind when I remember Nancy. Working with her always brought a smile to my face followed by an optimistic appreciation for the day ahead. No matter the difficulty, Nancy always managed to provide words of encouragement to lighten what seemed to be a never-ending workload. The poet, Maya Angelou describes this as, “Try to be a rainbow in someone’s cloud” and Nancy certainly was. With her passing, Nancy leaves a legacy of hope that will always inspire me in my daily tasks; and a deep sense of respect for everyone I encounter along the unexpected twists and turns in life’s many paths; and finally love for family and friends who share the journey. After all what is a rainbow but a glorious but temporary vision, symbolizing the best of what it is to be human.

*With great love and respect,
Brigid Abrahamson*

“ *To Vern and Nancy’s family, I am very sad to hear about Nancy. My deepest and heartfelt sympathy goes out to you and your family. I worked with Nancy for many years. She was a very lovely person. I enjoyed talking to her about food, our dogs, and avocado trees which she tried to grow from seeds in her office. Sincere condolences. Gerardo Matheus*
