“ Bob you have been a huge part of my life for 30 years, I always had mad love for you and knew when ever I needed help you would always be there for me and my girls. My life will not be the same without you here, I looked forward to our visits the thought of you not stopping by for a hair cut is overwhelming to me. I am having trouble saying good-by although, I know your in paradise with your Mom and Joe, and that does give me comfort. So until we meet again my sweet loving friend may you RIP. “Bobby was a really good friend of mine. I've known Bobby for almost two years, but it feels like it's been longer. Bobby was a really hard worker and always wanted to improve himself. He never judged or talked badly about anyone. He was always happy and excited to be at work. He told me stories about his past and how having this job now was going to help him change. I knew how important Tesla was to him. It was like a new chapter in his life, a way to start over again. When he first started working with us, he went crazy trying to get used to the new technology. We had our up and downs, but in the end we always made it work.

Bobby gave me a ride home every night. There was one time he took a day off and he called me that night, “Hey Lehi I was wondering if you need a ride home, you know since I'm not working today and I know you need a ride.” That's the kind of friend Bobby is. He never wanted to let anyone down. He never asked for money, gas, anything. I would always offer him cash for gas or to buy him food, but he always refused. Bobby didn't care, he just wanted company with him on the way back home. Bobby always had something to talk about, it was either about work or a story about when he was young and wild. I'm really going to miss Bobby a lot. He taught me to be an even nicer person to those who need help to never judge or talk about anyone.

The night before Bobby passed away he called me and said, “Hey Lehi what's up!” And laughed. “Hey just called to make sure we're still buddies you know since I've been out for a while. I should be back by next week but geez my ass is killing me you know!” and laughed again. I said, “Of Course Bobby we're still BUDDIES!! What the heck! You'll always be my buddy! Just try to get some rest. I don't care how long it takes but please get some rest and get better! I don't want you coming to work and falling apart here or getting hurt. Just keep Tom and I updated or have Roxanne call us. You take care Bobby! See you later!”

And that was the last I heard from my buddy Bobby.

I will always think about Bobby every time I come to work. I will never forget how awesome of a person he is and of all of the good times we had together.

I only knew you as a child and always remembered how cute you were. Of course you were also a pain in the butt when Belinda and I wanted to play. I regret not knowing you as a man, you will truly be missed.

Bob, It's been almost a year. I miss you very much. So much has happened since you took another path. I go and visit you and Joe when ever I can. Your spot is very nice you get to hear everyone's bike as they go down Mission Bl. The baseball field right there. The hills with the cows and grape tree's. I miss my big little brother. I love you and you are always with me.
